

SFB

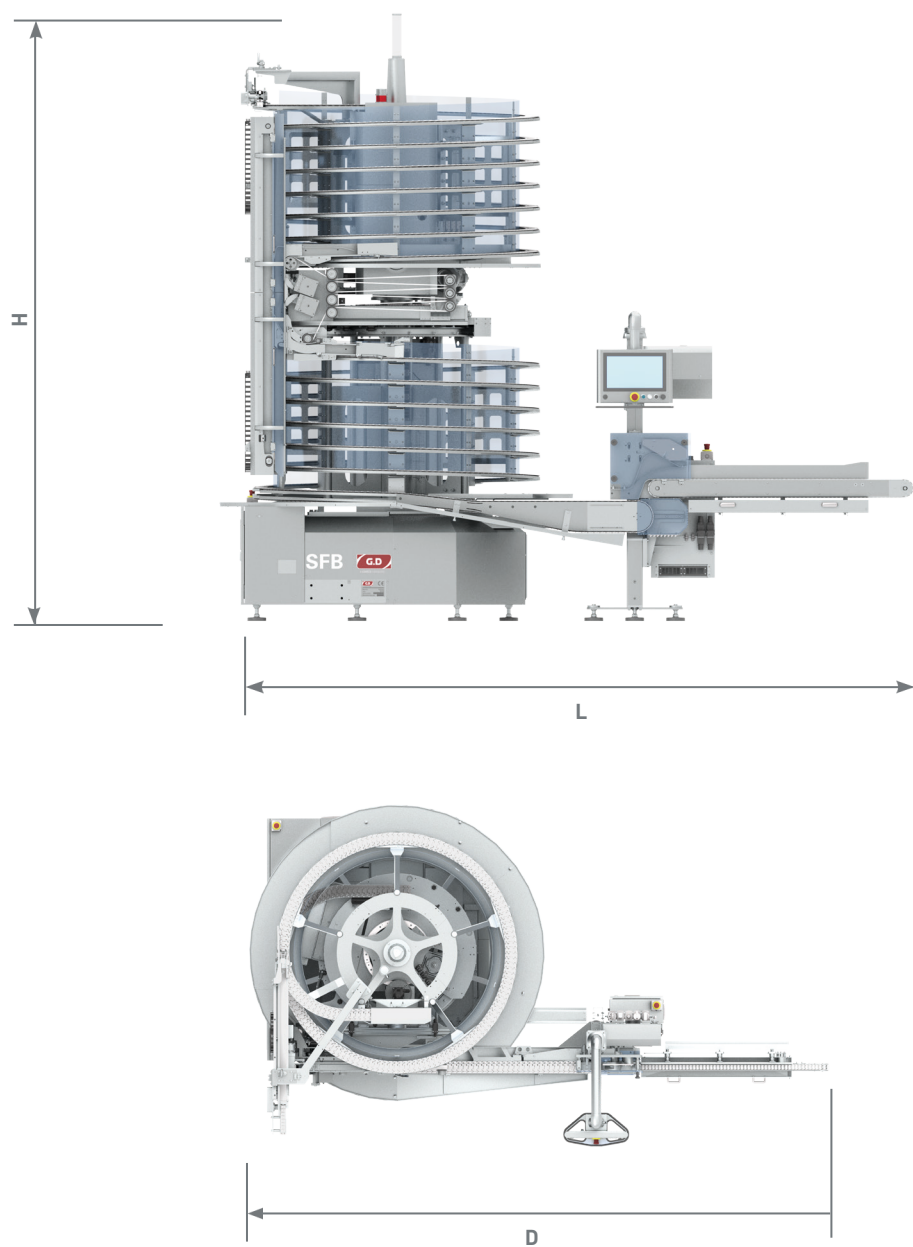

Automation

The SFB is a First In First Out (F.I.F.O.) cylindrical buffer with a capacity up to 105.000 products depending on customer specifications. The SFB features an optimized structure to ensure gentle handling and covers a wide range of products. Additionally, the compensator is designed to be compatible with both low and medium-speed machines.

Main features

- Suitable for Heat-Not-Burn, conventional cigarettes and filters
- Integrated elevator for footprint reduction
- Customizable exit layout in 3 directions
- Easy accessibility
- Safety ensured by laser-scanner
- Low Maintenance
- Optimized structure to ensure gentle product handling
- Optional external guards to contain the smell

Technical Data

Products length ranges	45 – 67 mm
	67 - 100 mm
	100-150 mm
Product diameter range	5.4 - 8 mm
Weight	4030 kg
Electrical power consumption	3.0 kW ±10%
Infeed product speed	Up to 14000 ppm
Diameter (D)	- 15 mbar
Length (L)	50 m3/h
Height (H)	6 bar

The information in this brochure is aimed at providing a broad overview of the equipment.
